46

Two identical 10x10 grids are provided for a dot-marker activity. Each grid contains the digits 0 through 9 in a repeating pattern across ten rows. The first row contains five dashes (-) and five zeros (0). The second row contains five dashes (-) and five ones (1). The third row contains five zeros (0) and five twos (2). The fourth row contains five ones (1) and five threes (3). The fifth row contains five twos (2) and five fours (4). The sixth row contains five threes (3) and five fives (5). The seventh row contains five fours (4) and five sixes (6). The eighth row contains five fives (5) and five sevens (7). The ninth row contains five sixes (6) and five eights (8). The tenth row contains five sevens (7) and five nines (9).

48

The image shows two identical 10x10 grids of circles. Each grid contains a repeating pattern of digits from 0 to 9. The digits are arranged in a 2x5 block pattern that repeats across the grid. The first row of the pattern contains the digits 0, 1, 2, 3, and 4. The second row contains the digits 5, 6, 7, 8, and 9. This pattern repeats every two rows and every five columns.

50

CHEMISTRY

Section B
94

A 10x10 grid of circles, each containing a number from 0 to 9. The grid is divided into two equal halves by a vertical line. Each half contains five columns of numbers, with each column having a unique number (0, 1, 2, 3, 4) repeated ten times. The numbers are arranged in a repeating pattern across the grid.

96

98

A 10x10 grid of circles, each containing a digit from 0 to 9, arranged in a repeating pattern of 10 rows and 10 columns.

100

MATHS

Section B
144

A 10x2 grid of circles, each containing a number from 0 to 9. The numbers are arranged in two columns of five rows each. The first column contains the numbers 0, 1, 2, 3, 4, 5, 6, 7, 8, 9. The second column contains the numbers 0, 1, 2, 3, 4, 5, 6, 7, 8, 9.

146

The image shows two identical 10x10 grids. Each grid contains the digits 0 through 9 in a repeating pattern. The first column contains 0s, the second 1s, the third 2s, the fourth 3s, the fifth 4s, the sixth 5s, the seventh 6s, the eighth 7s, the ninth 8s, and the tenth 9s. This layout is designed for a dot-marker activity where students place a dot on each number.

148

The image shows two identical 10x10 grids. Each grid contains the digits 0 through 9 in a repeating pattern. The first column contains 0s, the second 1s, the third 2s, the fourth 3s, the fifth 4s, the sixth 5s, the seventh 6s, the eighth 7s, the ninth 8s, and the tenth 9s. This layout is designed for a dot-marker activity where students place a dot in each cell.

150

A 10x10 grid of circles, each containing a digit from 0 to 9, arranged in a repeating pattern of 10 rows and 10 columns.
